

Commercial P2PKit Cookie Policy

Version: Sep 9th 2015

Cookies and Other Tracking Technologies: uepaa and our third party partners, such as our advertising and analytics partners, use various technologies to collect information, such as cookies and web beacons. Cookies are small data files stored on your hard drive or in device memory. We use cookies to improve and customize Uepaas Services and your experience; to allow you to access and use the Websites or Service without re-entering your username or password; and to count visits and understand which areas and features of the Websites and Service are most popular. By continuing to browse the site, you are agreeing to our use of cookies. You can instruct your browser, by changing its options, to stop accepting cookies or to prompt you before accepting a cookie from websites you visit. If you do not accept cookies, however, you may not be able to use all aspects of our Websites or Service. Uepaa and our third party partners also collect information using web beacons (also known as "tracking pixels"). Web beacons are electronic images that may be used in our Websites or Service or in emails that help us to deliver cookies, count visits, understand usage and campaign effectiveness and determine whether an email has been opened and acted upon.

Uepaa and our third party partners also use javascript, e-tags, "flash cookies", and HTML5 local storage to collect information about your online activities over time and across different websites or online services. Many browsers include their own management tools for removing HTML5 local storage objects.
